THE IMLAY COMPANY

THIRTY-FIFTH ANNUAL CATALOGUE OF

SEEDS, BULBS AND PLANTS

TERMS AND INSTRUCTIONS FOR ORDERING—
Our terms are cash with the order.

PRICES—Prices are quoted by the packet, ounce, and pound. They are the ruling prices at this date, subject to change, and do not include cost of transportation, except as noted below.

WE SEND BY PARCELS POST, ALL PACKETS only of Flower and Vegetable Seeds to any postoffice in the United States free. We deliver also by **PARCELS POST, PEAS, BEANS AND SWEET CORN** at the prices listed plus 8c **PER LB. EXTRA** to cover postage and packing, within the first three zones from Zanesville, which includes all of Ohio, part of Pennsylvania, Indiana, Michigan, Kentucky, Virginia and West Virginia. If sufficient postage is not included, the quantity will be reduced to cover cost of postage.

MARKET GARDENERS AND DEALERS wanting larger quantities than quoted, please write for special prices.

WARRANTIES—Seeds and plants of best quality will often fail through improper treatment. Small seeds may be sown so deeply that the young plants cannot reach the surface. More failures result from disregard of the conditions necessary to germination than from inferiority of the seeds used. For such reasons we give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

“Planet Jr.” Farm and Garden Tools.

Hand seeders and wheel hoes have never been appreciated as they are today. All should appreciate that there is a great saving in work well and accurately done. Rows should be at equal distances apart, and when crops are grown in hills planting should be done at regular intervals. Every garden should have Planet Jr. Tools for labor-saving and to enable one to grow larger and better crops. **Illustrated Catalogue mailed free** upon application. It fully describes all these valuable tools.

Hammond's Slug Shot.

This preparation is non-poisonous—no danger to the person using it. It does not render vegetables or fruit on which it is applied injurious, and is the best destroyer of chewing insects, such as potato bugs, worms, etc. 1 lb. 20c, 5 lbs. 50c.

VEGETABLE SEEDS.

If ordered by mail, please add 8c per pound for postage.
